If you think a book is worth reading, why not write a review about it? You could share your thoughts and insights on the book, helping others to decide whether it's worth their time. You could also discuss what you enjoyed most about the book and what you thought of the author's writing style. Additionally, you could explore how the book relates to other works of literature or to your own personal experiences. By sharing your thoughts, you can inspire others to pick up a book they might not have considered before. After all, reading is a personal experience, and everyone has their own unique perspective and connection to the written word.
